- KILKENNY advise that you create your list 12 weeks before your wedding date. We recommend that you come in for your complimentary consultation and avail of our vast experience. We understand that this can be a stressful time for you but please don't worry, as your list can be amended at any stage.
- We request that cancellation of the wedding register should be confirmed in writing before any refunds can be given to guests and the list closed
- From time to time, prices that appear on your wedding list may be subject to change.
- If an item on your wedding list features in a sale or promotion when your guest is purchasing, your guest may avail of the lower price.
- While we do our best to ensure that items listed are in stock, due to the time involved in producing handcrafts and the small operations of some of our suppliers, this is not always possible. However, out-of-stock items are available to order. We will notify you to the length of any foreseen delays and contact you when an ordered item has been delivered.
- KILKENNY would be happy to provide you with an exchange or gift voucher for the value of a returned wedding gift. Unfortunately refunds are not provided in this case. Items will only be exchanged if they are current season stock and not discontinued. This does not affect your statutory rights.
- To allow us to fulfil our customer service promise, we request that discrepancies of wedding gifts to be reported to us within 7 working days of receipt.
- Unfortunately, refunds can only be made to the purchasing guest, unless the purchaser consents to the refund being made to another party.
- Duplications will happen occasionally, however KILKENNY assure you that this will be rectified immediately. We will exchange or offer you a gift voucher for any duplicate purchases.
- * * You are entitled to purchase any remaining items on your Wedding List at a 20% reduction when 50% of total gifts on your Wedding List have been purchased.
- Under the Data Protection Act, KILKENNY guarantee that your address will not appear on any additional database lists.
